Monthly revenue

Key insights

Revenue of $1,924,911 across 14,286 orders
No earlier period of equal length exists in the data, so no comparison is shown.

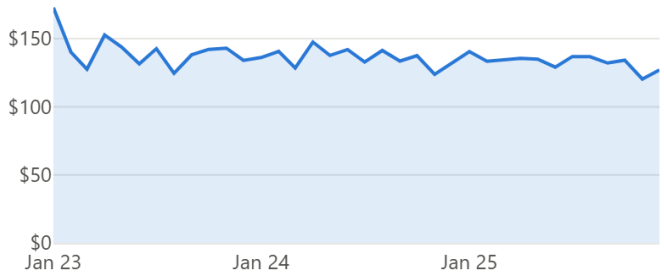

North America contributes 33% of revenue
Revenue is reasonably spread across regions.

Electronics has the highest AOV ($141); Beauty & Health the lowest ($65)
Bundling or cross-sell offers from Beauty & Health into Electronics could lift basket size.

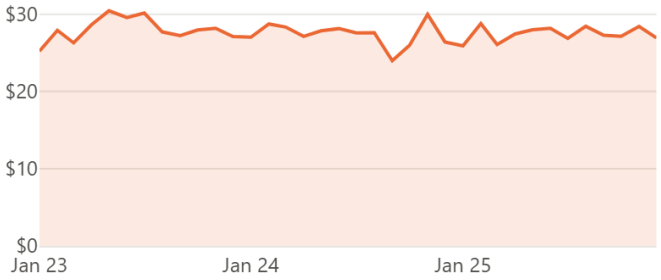

Paid Search costs $39 per new customer vs. $12 for Email
Shifting budget from Paid Search to Email would lower blended CAC (currently $27.60), provided Email can scale.

Monthly churn is rising: 15.1% over the last 3 months vs. 13.3% over the 3 before
Consider win-back emails to customers approaching 60 days since last order.
